

About

I am a Product Designer with 5 years of experience in UI/UX design and visual design. I have worked on diverse projects across logistics, cryptocurrency, and education, both in the B2B and B2C sectors. My passion lies in crafting appealing interfaces that prioritize usability and functionality. By applying human-centered design thinking, I ensure that every design decision caters to the needs and goals of end-users, resulting in intuitive and delightful experiences.

Experience

<b>GoFreight</b>	Product Team
