Experience

Senior Product Designer | KKday Taiwan Sep. 2023 - Feb. 2024

- Led a product multi-platforms publishing control project for Rezio (B2B SaaS tourism booking system) across Web & App, emphasizing user-centric and operation efficiency
- Leveraged client-focused user research (journey mapping & pain point identification) to drive impactful improvement proposals that shaped the future project management function redesign project plan.
- Fostered cross-functional team collaboration and established design system with front-end, enhancing communication and design consistency.
- Streamlined onboarding processes by creating design onboarding documents, significantly reducing onboarding time for new members.

Product Designer | Seeds Education Freelance Aug. 2023 - now

- Spearheaded website redesigns for a consumer-focused online course platform, conducting prototyping and conceptual modeling, resulting in a notable increase in user engagement.
- Translated visual designs into actionable specs, collaborating with engineers to ensure technical viability and digital experience quality.
- Facilitated clear communication with stakeholders, incorporating feedback to refine and enhance the overall design strategy.
- Executed design quality assurance to validate the design documents against the final interface and ensure that all features functioned as specified.

Product Designer | GoFreight Taipei, Taiwan Mar 2020 - Mar 2023

B2B SaaS Freight Management System & Freight Tracking System

- Prioritized a user-centric approach to improve enterprise-level systems in an early SaaS startup environment.
- Collaborated with engineers and project managers to develop and implement design solutions.
- Assisted senior designers in planning user research (interviews, user journey maps, data analysis, competitive analysis, usability testing) to uncover customer needs across projects.
- Developed and maintained a comprehensive design system, including guidelines, component library, and created detailed design specifications for engineers.

EC-Booking (B2B Freight Booking System)

- Led the design initiatives, which included wireframes, prototypes, user interface, handing off designs, and providing ongoing feedback to quality assurance.
- Successfully delivered the MVP project within a tight 3-month timeline, influencing the company's future project planning.

Visual Designer | HowDesign Taipei May 2018 - Jan 2020

- Delivered 20+ client websites (RWD) from concept to final hand-off to developers (Adobe Creative Suite)
- Led the design of KidCastle's online course and foreigner tutor recruiting system
- Executed client advertising projects (print & web) including brochures, banners, digital advertising, and websites.
