Experience

Senior Product Designer | KKday Taiwan Sep. 2023 - Feb. 2024

Rezio : B2B SaaS Tour Booking and Reservation System

- Led a multi-platform publishing control project for Rezio, resulting in a 2x increase in publishing efficiency.
- Influenced redesign decisions by conducting user research (customer journey mapping, pain point analysis) and proposed impactful improvements to the product owner.
- Fostered cross-functional collaboration to build a design system, enhancing development efficiency and design consistency.
- Enhanced website & app features with cross-functional teams, and increased user engagement for our global users across 7 languages.
- Streamlined onboarding processes by creating design onboarding documents, significantly reducing 35% of onboarding time for new members.

Product Designer | Seeds Education Freelance Aug. 2023 - now

Online Course Platform

- Spearheaded a online course platform redesign, involving prototyping and testing. This led to a 40% increase in monthly page views and a 6.2% rise in active users.
- Built a new design system that streamlined workflows and increased development efficiency by 30% through standardized components.
- Facilitated clear communication with stakeholders, proactively refining the design strategy to ensure feasibility and business goal alignment.
- Executed design quality assurance to validate the design documents against the final interface, identified 400+ issues, and ensured all features functioned as specified.

Product Designer | GoFreight Taipei, Taiwan Mar 2020 - Mar 2023

B2B SaaS Freight Management System & Freight Tracking System

- Audited the user journey, identified critical pain points, collaborated with cross-functional teams to implement solutions, resulting in a 20% decrease in customer complaints.
- Conducted user research (interviews, user journey maps, data analysis, competitive analysis, usability testing) to uncover customers' needs and workflow across various projects.
- Developed and maintained design system that streamlined workflows and increased development efficiency by 30% through standardized components.

EC-Booking (B2B Freight Booking System)

- Led the end-to-end design process for EC-Booking, which helped increase B-round funding by improving the freight booking experience and boosting revenue.
- Successfully delivered the MVP project within a tight 3-month timeline, influencing the company's future project planning.

Visual Designer | HowDesign Taipei May 2018 - Jan 2020

- Delivered 20+ client websites (RWD) from concept to final hand-off to developers (Adobe Creative Suite)
- Led the design of KidCastle's online course and foreigner tutor recruiting system
- Executed client advertising projects (print & web) including brochures, banners, digital advertising, and websites.
