Experience

Senior Product Designer | KKday Taiwan Sep 2023 - Feb 2024

- Led a multi-platform publishing control project for **Rezio (B2B SaaS reservation system for tours and activities operators)**, resulting in a 2x increase in publishing efficiency.
- Influenced redesign decisions by conducting **data-driven** user research (customer journey mapping, pain point analysis) and proposed impactful improvements to the product owner.
- Fostered cross-functional collaboration to build a **design system**, standardizing visual styles, UI patterns, and functional logic.
- Enhanced website & app features with cross-functional teams within the **travel industry**, and increased user engagement for our global users across 7 languages.

Product Designer | Seed Education Freelance Aug 2023 - now

- Spearheaded a **consumer-focused** online course platform redesign, involving prototyping and testing. This led to a 40% increase in monthly page views and a 6.2% rise in active users.
- Built a new **design system** that streamlined workflows and increased development efficiency by 30% through standardized components.
- Led **design discussions** with stakeholders, refining the **design strategy** to ensure feasibility and alignment with business goals.
- Executed design quality assurance to validate the design documents against the final interface, identified 400+ issues, and ensured all features functioned as specified.

Product Designer | GoFreight Taipei, Taiwan Mar 2020 - Mar 2023

B2B SaaS Freight Management System & Freight Tracking System

- Prioritized user-centric enhancements of **complex SaaS platforms**, collaborating with cross-functional teams to implement solutions, decreasing customer complaints by 20%.
- Conducted user research (interviews, user journey maps, data analysis, competitive analysis, usability testing) to uncover user needs and behaviour across various projects.
- Developed and maintained a comprehensive design system, including guidelines, and component library, and created detailed design specifications for engineers.

EC-Booking (B2B Freight Booking System)

- Led the design process of EC-Booking, from initial ideation to detailed execution and delivery, including navigation, UI transformations, and screen state variations.
- Contributed in an **agile, fast-paced team**, improved the freight booking experience, and increased B-round funding by boosting revenue.
- Delivered the MVP project successfully within a tight 3-month timeline, shaping the company's future project planning.

Visual Designer | HowDesign Taipei May 2018 - Jan 2020

- Delivered 20+ client websites (RWD) from concept to final hand-off to developers (Adobe Creative Suite)
- Led the design of KidCastle's consumer-focused online course and foreign tutor recruitment system.
- Executed client advertising projects (print & web) including brochures, banners, digital advertising, and websites.
